Education

Indian Institute of Information Technology, Bhopal

September 2023 – Present

B.Tech in Information Technology

CGPA: 7.67

Relevant Coursework: Data Structures & Algorithms, Computer Networks, Database Management Systems, Operating Systems, Object-Oriented Programming, Distributed Systems, Software Engineering

Experience

Full Stack Developer Intern, Triosoft Technologies Pvt. Ltd.

June 2026 – September 2026

- Architected a production Django/Redis backend for an AI voice-calling assistant while collaborating with a team of 3 interns, implementing distributed multi-turn session and conversation-state management for real-time customer interactions.
- Implemented an end-to-end LLM fine-tuning pipeline (Llama 3.1 8B) using LoRA/QLoRA with HuggingFace and PyTorch, including synthetic dataset generation and automated evaluation against baseline APIs.
- Designed a scalable AWS S3 image-processing pipeline (compression, UUID-based storage, caching) for a multi-restaurant food-ordering platform, reducing load times on low-bandwidth networks.
- Reduced monthly AWS infrastructure costs by **10%** through EC2/EBS resource utilization analysis and optimization, with no impact to production workloads.

Coordinator, Axios Development Club, IIIT Bhopal

October 2024 – September 2026

- Led a 30-member team to scale a 700+ developer community and directed an AWS-backed hackathon with **2,300+ participants and 187+ submissions**, coordinating cross-institution logistics.
- Designed and delivered 3 technical workshops (AWS, GCP, DevOps) to **500+ students**, achieving 50%+ practical adoption through hands-on EC2, Docker, and Jenkins deployments.
- Drove 20–25% project continuation (36–45 projects) and secured **Rs. 75K+ in sponsorships** supporting student startups and open-source contributions.

Projects

DevSecOps Three-Tier App (React, Node.js, MongoDB, Kubernetes, Terraform)

[Github](#)

- Architected and deployed a fault-tolerant, microservices-based 3-tier application on **AWS EKS** with Terraform-provisioned infrastructure and streamlined CI/CD via Jenkins and GitHub Actions.
- Engineered a highly available, horizontally autoscaling system sustaining **1K RPS** at sub-250ms P95 latency and **99.9% uptime** across 8 containers on a multi-node distributed cluster.

Recover-AI-Agent (Python, Django, E5-multilingual embeddings, Typescript)

[Github](#)

- Developed an AI-powered voice recovery platform using Python, Django, Redis, RAG, cloud LLMs, STT/TTS, and WebSockets, enabling real-time intent classification, customer recovery workflows, and scalable outbound call orchestration.
- Implemented real-time voice workflows with intent classification, Redis-based session state, RAG, and automated recovery actions through REST APIs and WebSockets.

Jarvis (Python, TTS Libraries, OpenAI API)

[Github](#)

- Developed a Python voice assistant integrating speech recognition, TTS, and third-party APIs to automate system/web tasks, achieving 90–95% command accuracy under 1s latency.

Technical Skills

Languages: C++, Python, Java, JavaScript, TypeScript, SQL, Go

Core CS: Data Structures & Algorithms, Object-Oriented Design, Distributed Systems, Operating Systems, Complexity Analysis, System Design

Cloud & DevOps: AWS (EC2, EKS, S3, IAM), GCP, Docker, Kubernetes, Terraform, Jenkins, Linux, Nginx

Backend & Frameworks: Django REST Framework, FastAPI, Flask, Node.js, REST APIs, React, Tailwind CSS, Git

Databases: PostgreSQL, MySQL, Redis, MongoDB, ChromaDB

AI/ML: LLM Fine-Tuning (LoRA/QLoRA), HuggingFace, PyTorch, RAG, Prompt Engineering

Practices: Agile, CI/CD, Microservices, Error Handling, Load Balancing, Scalable & Fault-Tolerant Systems, Testing(Pytest, Jest)

Achievements

- Attained **Knight** rank on LeetCode (**Rating: 1966**), Top 4.61% globally (Best Rank 110), and Specialist on Codeforces (**Rating: 1423**), solved 500+ problems spanning DP, graphs, and advanced data structures.
- Ranked **178th globally** among 35,000+ participants in CodeChef Starters (**3-Star, Rating: 1725**).
- Secured **2nd place** (Rs. 75K) at Strategy Sprint, Techkriti 2024, IIT Kanpur, among 250+ teams.
- Won **1st place** (Rs. 25K+) at Strategy Blitz Ideathon, IIIT Bhopal, among 100+ teams.
